

FIRE BREATHING DRAGON CRAFT

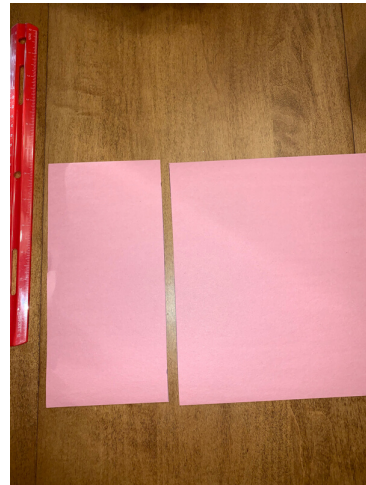

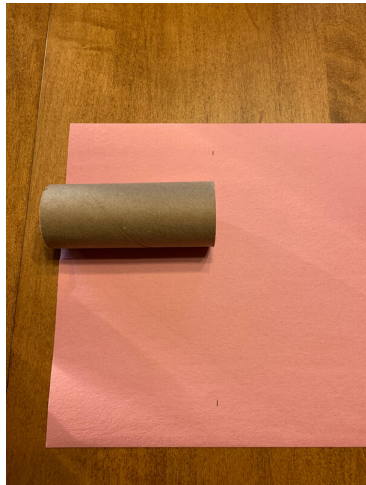

MATERIALS

- Toilet paper roll
- Construction paper
- Tissue paper
- Pom poms
- Googly eyes
- Glue
- Tape
- Scissors

INSTRUCTIONS

1. Use your toilet paper roll to measure enough construction paper to cover the roll. Cut it out!

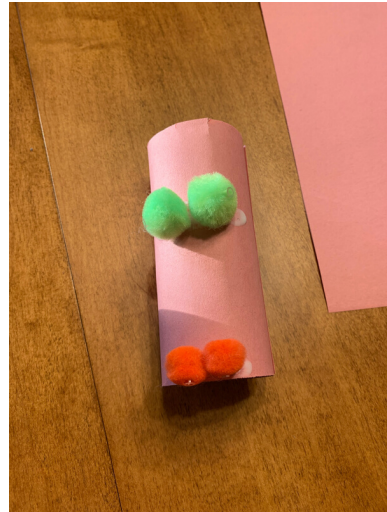

2. Glue your construction paper to the toilet paper roll.

3. Attach your pom poms as nostrils and eyes! It's fun if you have a pair of smaller ones for the nostrils, and larger ones for the eyes. Hot glue works best, but if you don't have a hot glue gun, you can use white glue or a glue stick. If you're NOT using hot glue, jump to the next step to attach your fire BEFORE attaching your pom poms!

If you have googly eyes, this is the time to attach them! Use your hot glue gun or white glue to attach the eyes to the large pair of pom poms.

4. Cut out long, skinny triangles from your tissue paper - 6-8" long. Using tape, attach them to the inside of your toilet paper roll.

5. You're done! If you want, you can use crayons, markers, stickers, etc. to decorate your dragon. Blow through the tube to make the fire move!
