Simple Bird Kite

MATERIALS:

- 1 8.5" x 11" piece of paper
 - Construction paper to create beak and tail feathers
 - Stapler
 - Glue
 - Hole punch
 - String
- Optional: Markers

INSTRUCTIONS

1. Fold the piece of paper in half "hamburger style". Gently fold edges up to create curved wings. Staple to secure.

2. Cut a triangle out of construction paper and glue to front of kite to form a beak. Cut feathers and glue to tail. If desired, draw on an eye and color as you wish.
3. Punch a hole in the body behind the staple. Tie string through hole. You're ready to fly!
