A note from Page

No oven needed for
this recipe!

Who said pizza had to be made out of cheese, sauce, and dough? Today we're making one out of fruits. And now that you think about it, what other kinds of stuff could you make pizza with?

Ingredients:

- 1 Small tortilla or a slice of bread (We used cinnamon raisin bread)
- ½ cup Plain Greek Yogurt*
- 1 teaspoon of honey
- ½ teaspoon of vanilla extract
- ½ cup of fruit (Suggestions: grapes, blueberries, kiwi, strawberries, grapes, peaches, tangerines)

Optional:

- Shredded Coconut

*Note: You can also use flavored yogurt. If you do, don't add the honey or vanilla.

Directions:

Make the "sauce"

1. Mix together the yogurt, honey, and vanilla.

Make the "dough"

2. If you're using bread, cut it into a circular shape.

If you're using a small tortilla, skip this step and move onto step #3.

Assemble your pizza

3. Put a layer of yogurt sauce on the bread or tortilla.
4. Place the fruit on top.

Add the "cheese"

5. Sprinkle on the shredded coconut.

Eat and enjoy!
