A note from Page

The laptop case isn't pictured above. But believe me, you can do it!

These Space Cases are the perfect way for Storyologists to store pens and pencils when traveling in space. You can also create the perfect spot to keep a laptop, tablet, OR your favorite book!

Materials:

- Zip Lock baggies (either sandwich-size or gallon-size for pencil cases)

Note: You'll need a 2 gallon Zip Lock Bag for the Laptop Sleeve

- Duct tape in various colors
- A re-used Bubble Mailer Envelope (for the laptop sleeve only)
- Scissors

Optional:

- Plastic Wrap
- Permanent Marker
- Stickers

Directions for Space Case Pencil Case:

1. Carefully wrap the bag in duct tape!
That's pretty much it.

Note: Try not to tape the zipper to the bag.

Directions for Space Case Laptop Sleeve.

1. Place a Bubble Mailer Envelope inside a two-gallon Zip Lock Bag.
(A re-used bubble mailer is just fine!)
2. Wrap the outside of the Zip Lock bag with duct tape.

Directions for Duct Tape Decorations:

1. Stick a piece of duct tape to plastic wrap OR cut open a Zip Lock and stick the duct tape to the plastic.
2. Turn it over and draw a design (something simple to cut out) on the plastic with a permanent marker.
3. Cut out the design
4. Peel the duct tape off the plastic
5. Decorate your bag with your design
