

PIRATE SPYGLASS

Visit us at www.PageTurnerAdventures.com

A note from Page

Start thinking of what kind of stuff your spyglass could spot on the high seas!

Every good pirate needs a spyglass. Will yours be fancy? Will yours be rough and tough? Small enough to fit in your coat, or big enough to use like a sword? Think about the kind of pirate you'd be and make a spyglass that fits you!

Materials:

- Paper Cup
- Paper Towel Tube
- Masking Tape
- Paint

Optional Decorations:

- Stickers
- Washi Tape
- Glitter Glue
- Duct Tape
- Markers

Directions:

1. Using the masking tape, tape the bottom of the cup to one end of the paper towel tube. (You might need an adult's help with this part!)
2. Paint the tube and cup.
3. Allow it to dry.
4. Have fun decorating your spyglass! Use stickers, paint, markers, glitter glue, or whatever you want to design your spyglass.

Storytime!

Arrrrggg, me hearties! Now, it's time to write a story about a spyglass!

What do you see when you look through your spyglass?

What if you found a magic spyglass? What would you see?

What if you see a deserted island? What would it look like?
